**Stockholm solar container  
communication station  
supercapacitor environmentally  
friendly electricity**

## Overview

---

What is ports of Stockholm?

Ports of Stockholm aims to meet future energy needs and strengthen the sustainability of port operations with microgrid technology and OPS.

How is the port of Stockholm working to meet EU regulations?

Staffan Forsell, Chief Strategy and Development Officer, Ports of Stockholm, commented that they are working strategically to meet EU regulations that require onshore connection for ships by 2030. This places high demands on the electricity grid, especially in Port of Kapellskär where the current capacity is limited.

Is Stockholm a sustainable cruise destination?

In related news, Ports of Stockholm inaugurated 'Sweden's first' onshore power connection for international cruise ships in September 2024, improving the region's position as a sustainable cruise traffic destination.

Does Sweden have a nuclear power plant?

Sweden currently has three nuclear plants with six nuclear reactors in operation. In 2023, some 14 per cent of Sweden's electricity came from wind power. Combined heat and power (CHP) plants - mainly powered by biofuels - accounted for around 10 per cent of the electricity output. Sweden is wise to draw energy from the forest. There's lots of it!

## Stockholm solar container communication station supercapacitor energy storage

---

### Innovation with sustainable microgrid technology will ...

With new microgrid technology and onshore power supply, Ports of Stockholm is taking further steps to meet future energy needs and strengthen the sustainability of port ...

---

### Ports of Stockholm launches OPS and microgrid demo

Ports of Stockholm, in partnership with the University of Skövde, Stella Futura, and power producer Ilmatar, is launching a project to combine onshore power supply (OPS) with ...

---

### Green supercapacitor composed of environmentally friendly ...

This publication presents the development of a green supercapacitor, focusing on the creation of an environmentally friendly composite material for electrodes in solid-state ...

## Ports of Stockholm: New project combines onshore power ...

Ports of Stockholm and its partners have decided to launch a project that combines onshore power supply (OPS) and microgrid technology.

### Commercial and Industrial ESS

Air Cooling / Liquid Cooling

- Budget Friendly Solution
- Renewable Energy Integration
- Modular Design for Flexible Expansion

## Ports of Stockholm Demonstrating Microgrid Technology at ...

The demonstration project for the collaborative effort--connecting wind, solar and battery storage--is starting in the Port of Kapellskär, one of several cargo and passenger ports ...

## Stockholm Norvik Port launches Sweden's largest port solar ...

Stockholm Norvik Port, Sweden's newest major port, has installed a new solar cell system "larger than that of any other Swedish port", as part of its efforts to reach long-term ...

## Ports of Stockholm launches OPS project and microgrid ...

Ports of Stockholm and its partners are launching a project that combines onshore power supply (OPS) and microgrid technology. The initiative will reduce emissions, improve ...

## Innovation with Sustainable Microgrid Technology will ...

Innovation with Sustainable Microgrid Technology will Strengthen Ports of Stockholm  
Ports of Stockholm is launching an innovative project to integrate onshore power ...
