# Telecom Energy Storage Clean solar solar container battery Cabinet

**LPR Series 19'  
Rack Mounted**

## Overview

---

What is a telecom energy storage system (TESS)?

Ensure seamless telecom operations with GSL Energy's Telecom Energy Storage Systems (TESS). Designed for cell towers, data centers, and network equipment, our telecom battery systems provide reliable backup power, optimize energy use, and reduce costs.

What is a container energy storage system?

The container energy storage system helps to use and manage energy more effectively, reduce electricity bills, and can be applied in various scenarios such as peak valley arbitrage for power users, frequency regulation and peak shaving for power grids, improving new energy consumption, and improving power supply stability for power grids.

What is a telecom backup system?

Our telecom backup systems provide robust, high-performance energy storage solutions, ensuring uninterrupted power for telecom infrastructure, even in remote locations or during power outages. Our range also includes Power Storage Wall, Stackable Batteries, High Voltage LiFePO4 Batteries and Floor Standing Lithium Batteries.

Does GSL energy offer a rack battery backup system?

At GSL ENERGY, our telecom battery backup systems are already deployed across multiple continents, supporting telecom towers, network base stations, and remote telecom hubs. Each rack battery installation is designed for easy integration, stable operation, and minimal maintenance. What is a server rack battery and why is it used in telecom?
