The real price of solar modules

CE UN38.3 

Overview

Why did solar module prices rise in May 2025?

In May 2025, shifting market dynamics saw solar module prices continue to rise, with supply constraints and firm demand putting upward pressure on pricing. In contrast, inverters trended lower, highlighting diverging developments across the PV value chain.

Will market-based electricity pricing affect new solar projects in 2025?

Under this policy, new grid-connected solar projects will adopt market-based electricity pricing from June 1, potentially leading to a sudden drop in domestic module demand and lower prices in the second half of 2025.

Is the European solar market in motion?

Expert analysis: the solar market in motion With a PMI of 70 and tightening module supplies, the European solar market stands at a pivotal moment. Rising prices for P-type and Full Black modules, driven by diminishing inventories, suggest supply constraints will linger into Q3, especially as global demand intensifies.

When will BC module prices be added in Eurpoe?

In Eurpoe, the public pricing for BC modules (residential and C&I) will be added from June 2025. InfoLink Consulting provides weekly updates on PV spot prices, covering module price, cell price, wafer price, and polysilicon price. Learn about photovoltaic panel price trends and solar panel costs with our comprehensive market analysis.

The real price of solar modules

Solar price index & Solar module price development

PRICE INDEX , October 2025 Photovoltaic Price Index Every month we publish a current price index on the development of wholesale prices of solar modules. In doing so, we differentiate ...

The hidden cost of ultra-cheap solar power

Shares of local solar groups have fallen this year as module prices drop. Gross margins at JinkoSolar, for instance, fell to 3.1 per cent in the year to September, down from 16 ...

PV spot price

InfoLink Consulting provides weekly updates on PV spot prices, covering module price, cell price, wafer price, and polysilicon price. Learn about photovoltaic panel price trends ...

Solar Module Prices 2025: Complete Guide To ...

Comprehensive guide to solar module prices in 2025. Current costs, market trends, buying strategies, and price forecasts. Updated with ...

Global solar module prices largely stabilize with upward

...

Under this policy, new grid-connected solar projects will adopt market-based electricity pricing from June 1, potentially leading to a sudden drop in domestic module ...

PV Index - module prices climb as inverters dip

Expert view - a solar market in motion
Outlook for the coming months With a PMI of 70 and tightening module supplies, the European solar market stands at a pivotal moment. ...

PV Index - module prices climb as inverters dip

Expert view - a solar market in motion

Outlook for the coming months With a PMI of 70 and tightening module supplies, the European ...

Global average price for solar PV modules 2024, Statista

Average spot price for solar photovoltaic modules worldwide from 2016 to 2024 (in U.S. dollars per watt-peak) You need a Statista Account for unlimited access Immediate ...

Global solar module prices largely stabilize ...

Under this policy, new grid-connected solar projects will adopt market-based electricity pricing from June 1, potentially leading to a ...

Solar Module Prices 2025: Complete Guide To Current Costs ...

Comprehensive guide to solar module prices in 2025. Current costs, market trends, buying strategies, and price forecasts. Updated with latest data.

Solar (photovoltaic) panel prices

Solar (photovoltaic) panel prices What you should know about this indicator IRENA presents solar photovoltaic module prices for a number of different technologies. Here ...
