

BLINK SOLAR

Thimphu Villa solar Tile Manufacturer

Overview

What are solar roof tiles?

Like solar panels, solar roof tiles are designed to capture the energy from the sun that is shining on your roof and turn that energy into a usable power source for your home.

What is solar tile?

Solar tile, which combines solar panels and roof tiles, integrates photovoltaic and architecture. Crystal silicon photovoltaic technology and building tile structure are innovated to eliminate the complex project of secondary installation and replace traditional cement tiles and clay tiles with one-time paving.

How do solar roof tiles work?

Solar roof tiles combine roofing materials and solar modules into one durable building material. This way, the solar roof tile can have a beautiful, fully integrated edge-to-edge appearance while still acting as an energy-generating unit. Solar roof shingles work on the same principle as traditional solar panels.

How many pieces of Photovoltaic Glass are installed in Shanghai?

134 pieces of colored photovoltaic glass in teal, grey with a total installed capacity of 16.36kW 20% light-transmitting glass with a thickness of 6mm is installed on the southeast, northwest and four sides, totaling 1,500 square meters. Shanghai Qingpu District Garbage Incineration Station.
