# **Tips for using outdoor power**

## Overview

---

For those in need of power outdoors for a short time, such as to trim your bushes, power a bounce house for your kid's birthday, or provide lighting for a party, an extension cord will get the job done for.

How do you bring power outdoors?

The fastest way to bring power outdoors is to install a receptacle directly behind an existing indoor outlet. Alternatively, you can drill through the wall from a basement or crawlspace and attach a receptacle on the house exterior using an extension ring. Position your outdoor receptacle at least 16 inches above the ground to prevent water damage.

How do you supply power outside?

An efficient method to supply power outside is by using back-to-back receptacles. First, turn off the power. Then, remove an indoor receptacle and drill a locator hole through the wall to the outdoor area. Was this page helpful?

.
