Tokyo BESS solar container outdoor power

Overview

Does LS electric have a Bess contract in Japan?

The company said it also aims to pursue further BESS contracts in Japan, as well as solar PV EPC projects and sales of power equipment including transformers. LS Electric will deploy a 20MW/90MWh battery storage system in Japan after it was awarded the contract through a competitive solicitation.

Where in Japan will a solar power plant be built?

Geographically, three of the projects will be built in Ibaraki Prefecture, two in Kanagawa, Chiba, and Tochigi each, and one in Tokyo, Saitama, and Gunma each. As Japan works to expand battery storage amid growing solar and wind capacity, METI also runs a similar subsidy scheme at the national level.

How much does Tokyo's FY2024 subsidy cover?

The subsidy covers up to 2 billion yen per project. A total of 12 projects totaling 180MW/595.3MWh was awarded 13 billion yen through Tokyo's FY2024 subsidy for promoting grid-scale battery storage, the metropolitan government's document released in February 2025 shows.

How much energy will Japan have in 2024?

In early 2024, BloombergNEF forecast that from an installed base of 4GW/10GWh as of the end of 2022, Japan's cumulative energy storage installations will grow to about 10GW/27GWh by 2030.
