Tunisia Energy Storage Integration Project

Overview

Why should Tunisia invest in tereg?

“ By fostering renewable energy development, TEREK will strengthen Tunisia’s position in clean energy, creating economic opportunities and ensuring long-term energy security,” said Alexandre Arrobbio, World Bank Country Manager for Tunisia. “ This project reflects our strong partnership with Tunisia and supports its sustainable development goals.

How will the tereg program help Tunisia achieve its goals?

The TEREK program is expected to support Tunisia in achieving its goals to mobilize US\$2.8 billion in private investment to add 2.8 gigawatts of new solar and wind capacity by 2028, and create over 30,000 jobs, primarily during the construction phase of renewable projects.

How will the World Bank support Tunisia?

New \$430 million World Bank-supported program to support Tunisia’s efforts to expand renewable energy, improve electricity reliability, and strengthen sector governance.

How will Tunisia's energy reforms impact the economy?

“ The program’s reforms—such as reducing technical and commercial losses and increasing the share of renewables—are expected to deliver lasting improvements in the operational and financial performance of the sector, making electricity more affordable and reliable for households and businesses across Tunisia.”

Tunisia Energy Storage Integration Project

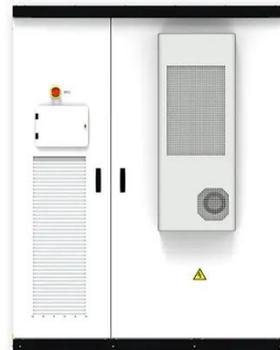

Tunisia seeks consultants for 400 MW solar ...

The World Bank is inviting consultants to submit proposals for a technical study on a 350 MW to 400 MW solar project with battery ...

Deploying Battery Energy Storage Solutions in Tunisia

Deploying Battery Energy Storage Solutions in Tunisia Authors RES4Africa Foundation: Paolo Cutrone RINA: Ali Kanzari, Emna Ben Mahmoud, Ahlem Ben Abidallah, ...

China's YJC Power Plans Electric-Vehicle Battery Plant in Tunisia

YJC Power to partner with Hyacinth Automotive on a lithium-battery factory Project aims to support local production and strengthen Tunisia's EV ecosystem Initiative positions ...

Tunisia Power Storage Project

Comparison of different types of energy storage batteries Different types of Battery Energy Storage Systems (BESS) includes lithium-ion, lead-acid, flow, sodium-ion, zinc-air, nickel ...

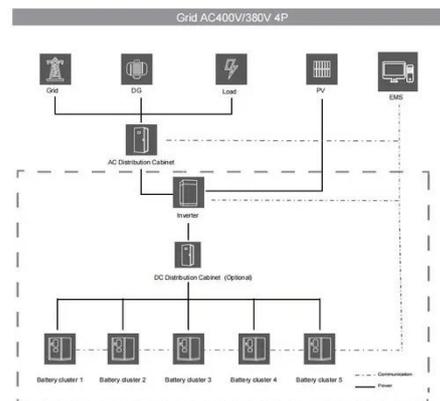

World Bank Approves New Project to Power Tunisia's Energy ...

New \$430 million World Bank-supported program to support Tunisia's efforts to expand renewable energy, improve electricity reliability, and strengthen sector governance.

Tunisia seeks consultants for 400 MW solar-plus-storage project

The World Bank is inviting consultants to submit proposals for a technical study on a 350 MW to 400 MW solar project with battery energy storage in Tunisia. The deadline for ...

Renewable Energy: Tunisia should prepare for energy storage ...

RES4Africa's report on "Battery Energy Storage Systems in Tunisia" argues that

energy storage is an essential tool to enable the effective integration of renewable energy and ...

Tunisia energy storage integration

Tunisia energy storage integration
Among the objectives of the Tunisian energy transition, the integration of 30% of renewable energy in the electricity mix by 2030. Faced with the ...

Tunisia, World Bank seek experts for 400 MW large-scale solar project

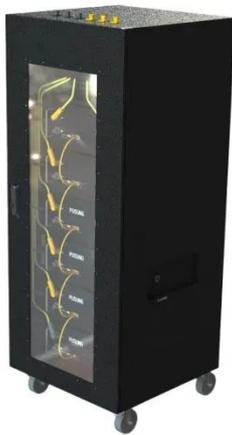

The World Bank, in collaboration with Tunisia's Ministry of Industry, Mines, and Energy (MIME), has announced the need for a technical study for a substantial 350-400 MWp ...

MENALINKS launches Battery Energy Storage Systems (BESS) ...

On 5 and 6 February 2025, the MENALINKS programme officially

launched its Battery Energy Storage Systems (BESS) workflow in Tunisia. The kick-off brought together over 25 high ...

Tunisia Looking For 400MW Battery Energy Storage System Project

Battery Energy Storage System (BESS) Tunisia's Minister of Industry, Mines and Energy, Fatima Al-Thabat Shabb, has approved four solar projects with a combined capacity of ...
