# Tunisia container solar panels

## Overview

---

Why did Tunisia import Chinese solar panels in 2024?

This surge in activity is reflected in trade, as Tunisia imported 655 MW of Chinese PV panels between July 2024 and June 2025, placing it among Africa's top six solar importers. This combined push signals a significant turning point for Tunisia's energy transition.

Is Tunisia accelerating the deployment of a large-scale photovoltaic sector?

By bna Cairo bureau Tunisia is finally accelerating the deployment of its large-scale photovoltaic (PV) sector after years of slow progress, with construction now underway across multiple major projects, PV-Magazine reported.

When will Tunisia get a photovoltaic power plant?

The government will await proposals until Ap. The capacity will be awarded under the second round of the country's AO-01-2022 call for tenders, through which Tunisia aims to find contractors for 1,700 MW of photovoltaic (PV) projects under its national renewable energy development programme.

What is Tunisia's energy transition?

This combined push signals a significant turning point for Tunisia's energy transition. Tunisia's National Renewable Energy Plan, often called the Tunisian Solar Plan (PST), targets an ambitious goal of increasing the share of renewables in its electricity mix to 35% by 2030 to reduce reliance on costly imported natural gas.
