# **Türkiye mobile energy storage vehicle equipment**

## Overview

---

Is Polat Enerji Turkey's largest battery energy storage system?

Once commissioned, the facility will be Turkey's largest battery energy storage system. Polat Enerji is an established renewables developer in Turkey, owning approximately 6% of the country's installed wind energy capacity with a cumulative power output of around 660 MW.

Why is Rolls-Royce supplying a large-scale battery energy storage system?

Later, the storage units also supply green electricity to the grid when there is no wind but energy is still needed. Rolls-Royce has been awarded a contract by Polat Enerji, one of Turkey's leading investors in the renewable energy sector, to supply a large-scale battery energy storage system with a capacity of 132 MWh.

Who is Rolls-Royce solutions Turkey?

For 35 years, Rolls-Royce Solutions Turkey has been providing products and services with its own nationwide service network for all industries in which Rolls-Royce Power Systems operates. Rolls-Royce develops and delivers complex power and propulsion solutions for safety-critical applications in the air, at sea and on land.

What is MTU QG energypack?

The mtu QG EnergyPack will be integrated into the Göktepe Wind Power Plant near Yalova in northwestern Turkey and will ensure that electricity from renewable sources can be fed into the grid without interruption.
