

BLINK SOLAR

UK collapsible container 120kW

Overview

Are collapsible containers good quality?

Our collapsible containers represent great value for money, while also retaining their reputation as the UK's best quality flat pack container. They are manufactured from steel, with ply board flooring in a steel frame, giving them longevity and resistance to damage, intruders and adverse weather conditions.

What is a collapsible bulk container with extended length?

The collapsible bulk container with extended length is designed to handle extremely long and hard-to-fit parts. All extra long bulk containers are available with wide access doors and manufactured from high-density polyethylene using a structural foam-molding process for increased durability.

What is a heavy duty collapsible bulk container?

Our heavy duty collapsible bulk containers are part of the BulkPak® line and transport even bulky, hard-to-fit parts safely. At the same time, the large FLCs hold up to 900 kg. With a return ratio of up to 1 : 2,6, the collapsible bulk containers optimise space utilisation during storage and return transport.

What is a collapsible container?

Collapsible containers are mobile storage units, or flat pack containers that are screwed together on site, while maintaining the capacity for quick and easy relocation. This makes them a great all rounder for general purpose storage in any setting, either business or domestic, either on a permanent or temporary basis.
