# UK energy storage cabinet prices

## Overview

---

How much energy storage is installed in the UK?

Total installed capacity of utility-scale storage is now approaching 1.7 GW across 127 sites and the figure below shows annual installed energy storage capacity by project size. The UK installed 446 MW of utility-scale energy storage in 2021, close to the previous high seen back in 2018. Image: Solar Media Market Research.

Who are the UK ESS battery experts?

We are the UK ESS battery experts and top supplier. We offer unparalleled quality and value. At Sunvault, we're passionate about offering tailored solar battery storage solutions that fit your needs, and bringing the best solar batteries for home energy storage, motorhome or even commercial energy storage.

How much does a kilowatt-hour of storage cost?

However, a more precise way to assess their value is by using the £/kWh metric, which stands for price per kilowatt-hour of storage. This pricing can vary between £265 and £415 per kWh. The more affordable options often come from Chinese importers, while the higher end of the spectrum features premium brands like Tesla from the United States.
