UPS equipment with battery cabinet

Overview

How to choose UPS battery cabinets?

Furthermore, the cabinets need to offer removable hinged doors so that the UPS system can be easily accessed. Doors need to be locked for safety and security. UPS Battery Cabinets have to be designed to house most front terminal batteries. Your UPS Battery Cabinets should have removable side panels so that cables can be easily installed.

What kind of batteries do ups use?

The most common battery used in UPS equipment is a sealed, lead-acid, maintenance free type. Ni-Cad (Nickel-Cadmium) batteries are a more expensive option. Large UPS systems often use wet, lead-acid storage batteries. Batteries are rated by specifying an open circuit DC voltage and a Ampere-Hour (AH) rating.

Does unified power offer battery cabinets?

Unified Power offers a complete line of battery cabinets for both UPS and Telecom Applications. These cabinets can be configured to match OEM cabinets and offer a competitive option for system upgrades or new projects. Features Space saving foot print is the industry's most compact design.

What are Arimon battery cabinets?

Arimon uninterruptible power supply (UPS) backup battery cabinets are available for either front access batteries or top terminal (monobloc) batteries. All battery cabinets are constructed from heavy gauge steel with a durable welded frame and acid resistant powder coated finish available in a wide range of colors.
