UPS uninterruptible power supply cabinet waterproof

Overview

What is an outdoor UPS system?

Outdoor UPS systems are rugged back-up power supplies that are designed to support Access Control, Security, Public Utility and Telecommunications applications, most of which are in harsh outdoor locations.

What is a UPS (uninterruptible power supply)?

A UPS (uninterruptible power supply) sits between an alternative source of power – such as a standby diesel generator – and protected loads.

What is an UPS system & how does it work?

These UPS systems are custom engineered to provide clean, uninterruptible back-up power and protect sensitive electronic equipment in harsh climates. Each component of these systems contributes to its hardiness, reliability and functionality.

What is tsi power xups outdoor UPS?

The TSI Power XUPS Outdoor UPS ensure continuous uninterrupted power for mission critical loads. This thoughtfully designed and reliable UPS is built to face the challenges of loads installed in harsh outdoor environments, equipped with wide-temperature, pure lead, gel batteries and housed in a weather-protected enclosure.
