

BLINK SOLAR

USA New York UPS solar container outdoor power parameters

Overview

What is an outdoor UPS system?

Outdoor UPS systems are rugged back-up power supplies that are designed to support Access Control, Security, Public Utility and Telecommunications applications, most of which are in harsh outdoor locations.

What is a weatherproof UPS backup system?

Weatherproof UPS backup systems for emergency backup power. Our AC/DC Outdoor UPS™ back-up systems provide a complete, uninterruptible power supply that integrates quickly with batteries, loads, and monitors. DC systems are available in 12, 24 and 48 volt. AC systems are available in 120 VAC configurations.

What is ups-AC/DC outdoor?

Our systems produce clean, uninterrupted power for critical AC and/or DC loads. In the event of AC (utility) power loss, the UPS-AC/DC Outdoor supplies back-up power for 24-48 hours, or longer if requested. We include a high quality, powder-coated, outdoor rated white aluminum enclosure, designed to house the battery and system electronics.

Why should you choose an outdoor UPS system?

High Reliability: Our outdoor UPS systems offer high reliability and long-lasting performance with advanced technology and superior components, ensuring continuous power availability when you need it most.
