

BLINK SOLAR

USA New York battery energy storage company

Overview

What is the New York battery & energy storage technology consortium?

The New York Battery and Energy Storage Technology (NY-BEST™) Consortium, established in 2010, serves as an expert resource for energy storage-related companies and organizations looking to grow their business in New York State.

What is the largest battery storage project in the US?

At present, the 409 MW Manatee Energy Storage in Florida is the largest operating battery storage project in the U.S. Developers have scheduled more than 23 grid-scale battery projects, ranging from 250 MW to 650 MW, to be deployed by 2025.

Who has delivered the battery energy storage project?

Audi, Etogas and MAN Energy Solutions have delivered the battery energy storage project. Additional information The Stuttgart-based plant manufacturer ETOGAS GmbH (formerly SolarFuel) has timely developed and built the world's largest power-to-gas plant. Customer and operator is the Audi AG.

Why is energy storage important?

To achieve New York's climate goals, it's clear energy storage will play an important role in the electric grid & transportation system of the future. We work to ensure that markets are developed fairly & with an eye towards enabling a clean energy future. Discover more about our history, mission, leadership, and more.
