

BLINK SOLAR

Ukrainian solar container communication station wind power construction company

Overview

Who is Ukrainian system Solar LLC?

UKRAINIAN SYSTEM SOLAR LLC - a Ukrainian company headquartered in Kyiv city. Since its foundation in 2011, the company has solely focused on the alternative energy projects, in particular, solar power plants construction both for industrial purposes and private households.

Does Ukraine have a solar power plant?

Ukraine's annual solar energy volume is higher than that of Germany, one of the industry leaders. From 2018 to 2020, solar energy capacity increased nearly fivefold. As of 2024, solar power plants account for about 75% of "green" energy production in Ukraine (excluding large hydropower plants).

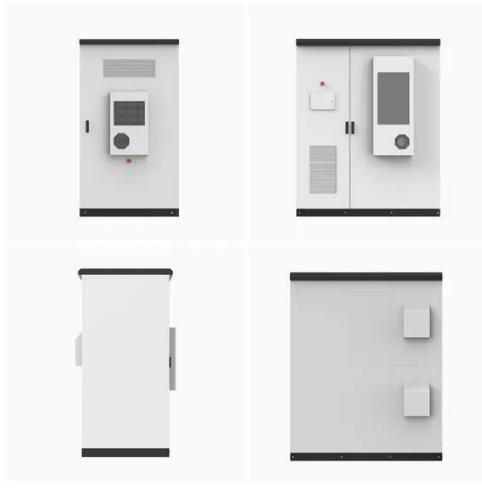

Is solar energy gaining traction in Ukraine?

Solar energy in Ukraine is gaining traction. With one of the largest solar energy companies in the country aiming to deliver 1 Gigawatt of solar and wind energy by 2030, there is a huge spike in demand. Ukraine has a range of incentives designed to encourage investment in solar power facilities.

How many solar power plants were installed in Ukraine in 2023?

As of early 2024, renewable energy capacity stood at 8.7 GW. Despite the war's challenges, in 2023, DTEK Networks connected over 1,400 new RES facilities to the system, commissioning 182.3 MW of wind and approximately 500 MW of solar power plants. In 2023, Ukrainian businesses invested around USD 150 mln in solar energy.
