Vietnam is communicating via base stations

Overview

How many 5G base stations will VNPT install this year?

According to Nguyen Anh Dung, Director of Enterprise Customer Division at VNPT, the company is expected to install approximately 20,000 new 5G base stations across the country to enhance network connectivity this year. VNPT effectively deploys Smart Agriculture Solution - ONE Farm. (Photo: VNA).

What is Vietnam's Digital Infrastructure Strategy for 2025?

Vietnam's Digital Infrastructure Strategy for 2025, with a vision toward 2030, underscores that "digital infrastructure is the backbone of the economy." It sets a target that by 2025, all localities, high-tech zones, IT hubs, R&D centres, innovation hubs, industrial parks, railway stations, seaports, and airports will have access to 5G services.

Is 5G faster than 4G in Vietnam?

In Vietnam, some 5G tests have demonstrated download speeds of 1 Gbps—ten times faster than 4G in the same locations. Beyond speed, 5G offers ultra-low latency and the capacity to support a vast number of connected devices.

What will Qualcomm do with 5G in Vietnam & Laos?

From a supplier perspective, Thieu Phuong Nam, General Director of Qualcomm Vietnam, Cambodia and Laos, said that Qualcomm will continue to work with technology ecosystems, mobile ecosystems, including the Government, network operators, and domestic manufacturers to deploy 5G on a large scale.
