Vietnam outdoor power wholesale BESS price

Overview

How much does a Bess system cost in Vietnam?

In 2023, EVN PECC3 estimated that the cost for a 2 MWh BESS system was 360–420 USD/kWh, and that the investment would require electricity prices in Vietnam above 18 UScent/kWh to be profitable – this is twice the current levels. However, BESS costs are declining rapidly.

Does Vietnam have a Bess market?

Currently, the BESS market in Vietnam is nascent, with significant limitations in terms of technical expertise and infrastructure. As at November 2024, Vietnam had only three pilot BESS projects: one at Power Engineering Consulting Joint Stock Company 2 (PECC2), another at VinFast and a third at Kehua Digital Energy in Khanh Hoa.

How will Bess work in Vietnam?

The legal framework for BESS in Vietnam is still developing, but it will likely build upon existing energy laws. The Law on Electricity provides the overarching framework for the power sector, while specific regulations will need to be developed for BESS.

What is the current state of Bess in Vietnam?

The Current State of BESS in Vietnam As of 2024, Vietnam has practically no BESS installed. So far, only private renewable power projects have trialed BESS development, there is nothing at the utility scale. The largest electricity storage project in Vietnam is the Bac Ai Pumped Storage Hydropower Project.

Vietnam outdoor power wholesale BESS price

Sector Analysis Vietnam

The rapid development of RE in Vietnam, particularly wind and solar power, requires BESS deployment to buffer the intermittency of these sources and ensure grid reliability.

Wholesale price of BESS in Vietnam
