# **Vilnius Solar Container Two-Way Charging**

## Overview

---

What is two-way charging?

Two-way charging is a two-way solar tariff for residential and business solar customers. It's designed to: encourage customers to export excess energy generated at times when it's needed the most. Why do we need two-way charging?

.

Can I Opt in to solar two-way charging?

Yes, you can opt in to solar two-way charging, however you will see a \$0 solar export charge on your bill. More information about solar rates in your state.

What is v2l charging?

V2L charging is becoming increasingly common, as more and more EVs are equipped with bidirectional charging capabilities. Vehicle-to-Vehicle charging is a special application of V2L charging, allowing energy to be passed from one EV to another through a dedicated V2V connector.

Will I get a \$0 solar export charge in 2025?

From 1 September 2025, some customers in New South Wales and South Australia, will see a \$0 solar export charge on their bill. If we do implement a charge, we'll let impacted customers know before this happens. Can I opt into two-way charging?
