# **What is the price of a generator container**

## Overview

---

What is container type diesel generator set?

Container type Diesel Generator Set Jet power supply container type generator set is design in accordance with ISO/TC104 standard size, rational construction, to make sure the generator set will not be damaged due to under high pressure in transport, and is suitable for ship transportation.

What is a container generator?

Our Container Generator offers exceptional quality within the Diesel Generator category. A diesel generator comprises an engine, alternator, fuel system, cooling system, and exhaust system. Each component plays a critical role in generating electricity efficiently. For specific insights on customization and usage, consult a well-known manufacturer.

What are the different types of container generators?

We can supply the 20' container, 40' container, and widen or heighten container type. They are divided into the normal type and silent type. This series generator set can be easily moved to the desired location, can run under the most demanding working conditions.

How much does a generator cost?

The cost of a generator varies depending on its size. A small generator can be had for \$30,000-\$40,000 new, while larger ones can retail for anywhere from \$100,000 to \$500,000 or more. A good rule of thumb in sizing the generator is 50 kW plus 10 watts per square foot.
