## Overview

---

Where can I buy a solar inverter?

sun.store is a professional B2B marketplace built for contractors who need to move quickly from design to delivery. Here you can compare solar inverters side-by-side, check transparent stock across multiple suppliers, and buy solar inverter models that match your bill of materials without chasing quotes across inboxes.

How to buy a solar inverter without breaking the bank?

If you want to buy it without breaking the bank, take advantage of the best prices, guarantees and delivery flexibility offered by the number 1 in the sale of photovoltaic products. These photovoltaic inverters transform the direct current of your solar panels into alternating current.

Where can I buy solar products online?

Source your solar online. **ALL OFFERS** We provide the infrastructure that guarantees a secure environment for your online trading activity. Solartraders is the go to marketplace when you want to purchase solar products at the most competitive prices. No middlemen, no hidden fees, no bullshit.

What type of inverter do solar panels use?

On-grid inverter: Most small-scale solar panel installation systems use an on-grid inverter, also known as a 'centralised' inverter. These solutions are the most commonly installed inverters. The DC (direct current) electricity generated by the solar panels is plugged into this inverter.
