# Which American energy storage solar project is the best

## Overview

---

What is the largest solar & storage facility in the US?

AES just completed the first half of Bellefield, which will become the largest solar + storage facility in the US. The 1,000-megawatt (MW) Bellefield 1 project in Kern County, California, includes 500 MW of solar and 500 MW of four-hour battery storage, all under a 15-year contract with Amazon.

What is the biggest solar-plus-storage project in the country?

"The 1,000-megawatt (MW) Bellefield 1 project in Kern County, California, includes 500 MW of solar and 500 MW of four-hour battery storage, all under a 15-year contract with Amazon. When the full 2,000 MW Bellefield project is done, it will be the biggest solar-plus-storage installation in the country."

What is Daggett solar power facility – battery energy storage system?

The Daggett Solar Power Facility – Battery Energy Storage System is a 450,000kW lithium-ion battery energy storage project located in San Bernardino, California, the US. The electro-chemical battery storage project uses lithium-ion battery storage technology. The project was announced in 2019 and will be commissioned in 2024.

What is Stafford Hill solar & battery storage?

Operational for 10 years, Green Mountain Power's Stafford Hill Solar + Storage Project combines solar power with battery storage to create a resilient and reliable power system for the community. The US Department of Energy says the Stafford Hill Solar Farm is the first project to establish a micro-grid powered solely by solar and battery storage.
