Which large energy storage cabinet is the best in the Netherlands

Overview

Is there a roadmap for energy storage in the Netherlands?

In the Netherlands, there has also historically not been a roadmap or detailed industrial strategy with supportive legislation, policy, taxation reliefs, or investment incentives for the energy storage market.

Is there a business case for energy storage in the Netherlands?

As mentioned above, there have been two major barriers, or stumbling blocks, to the business case for energy storage in the Netherlands to date. As of the beginning of 2022, one of those has been eliminated, to the great relief of GIGA Storage and others in the industry.

How many energy storage facilities are there in the Netherlands?

The vast majority of the 20 MW of installed energy storage capacity in the Netherlands is spread over just three facilities: the Netherlands Advancion Energy Storage Array (10 MW Li-ion), the Amsterdam ArenA (4 MW Li-ion), and the Bonaire Wind-Diesel Hybrid project (3 MW Ni-Cad battery).

What is the energy storage roadmap?

The government responded to some of the feedback from market participants, issuing its first Energy Storage Roadmap in June 2023. Amongst other points, this recognised the important role that energy storage will play in the coming years and the importance of market participants coming together to develop a holistic approach for storage assets.
