Which solar inverter is the most cost-effective for home use

Overview

CNET experts have compared the most popular solar inverters' specs, warranties, prices and more. The SolarEdge Home Wave Inverter is our top pick in 2025. Are solar inverters a good choice in 2025?

With technology advancing rapidly, 2025 has brought a new wave of efficient, reliable, and smart solar inverters. If you're planning to go solar or upgrade your current system, working with experienced professionals such as Solar Panels Birmingham can help ensure a smooth installation and maximum energy output.

What type of solar inverter makes the most sense?

Those are the kinds of things that can make a real difference in what type of inverter solution makes the most sense," Kurchin added. When it comes to home solar installation, homeowners have three types of solar inverters to consider: string inverters, string inverters with DC power optimizers and microinverters.

Do you need a solar inverter?

Solar inverters are a necessary but often forgotten part of a home solar panel system since they convert sunlight into usable electricity for your home appliances. Without a solar inverter, you wouldn't be able to use those solar panels to power your home.

What is the most expensive solar inverter?

Unsurprisingly, that top-notch technology comes at a price. EnergySage data from the second half of 2024 shows that solar panel systems with this SolarEdge inverter cost \$2.90 per watt (that includes the inverter and solar panels), making the Home Hub the most expensive inverter on our list. 2. Best voltage performance: Tigo EI Inverter TSI-7.6
